

PRODUCT INFORMATION SHEET

POWERCLEAN 501 GENERAL PURPOSE CLEANER

PRODUCT DESCRIPTION:

POWERCLEAN 501 is a concentrated cleaner for the rapid and effective removal of fat, grease, grime etc, from floors, ceramics, walls, rubber & stainless steel surfaces. Leaves a non slip surface.

ADVANTAGES:

Can be used by spray, brush, mop or mechanical cleaner.
Leaves a pleasant Eucalyptus fragrance after use.

HIGH CLEANING POWER:

Contains a powerful blend of emulsifiers, surfactants, sequestrants and alkalis, which removes grease & dirt.

SUITABLE IN HARD OR SOFT WATER:

Contains a sequestrant, which inhibits scale formulation and optimises detergency, even in very hard water areas.

VERSATILITY OF USE:

Can be used in all mechanical washers. It is also suitable for manual cleaning when desired.

BIODEGRADABILITY:

Readily biodegradable.

SOLUBILITY:

100% soluble in water.

DIRECTIONS FOR USE:

Concentration usage depends on the degree of soiling. For manual applications a 5% solution should suffice in normal usage. Do not mix with other detergents.

HEALTH AND SAFETY: See Safety Data Sheet.

PACKAGING:

All our plastic drums are high molecular weight, high density polyethylene designed to bring the product to the customer in perfect conditions.

Size: 500ml, 2Lt, 5Lt & 20Lt Drums.
