

PRODUCT GUIDANCE SHEET

QUICKSTRIP

CONCENTRATED EMULSION FLOOR POLISH STRIPPER

A fast acting emulsion polish floor stripper, containing powerful alkalis and water soluble solvents for the effective penetration, break up and removal of the heaviest layers of floor polish. Used to remove emulsion polishes from vinyl, wood, linoleum, stone and marble, and can also be used for spray-stripping. It is an especially useful for the periodic maintenance of high traffic flooring in the hospitality, education, leisure and business sectors.

Product Name:	QUICKSTRIP
Description:	Concentrated emulsion floor polish stripper
Pack Size(s):	2x5Lt
Pallet Size(s):	80
Product Code(s):	1349

HOW TO USE

- Follow directions and dilutions correctly for the effective removal of emulsion floor polish.
- Dilute between 5 and 10:1 with warm water depending upon the amount and age of the polish build up - equivalent to 3-6 plunges of a 5lt pelican pump per litre of water in the bucket.
- Mop solution onto floor allowing 15 minutes contact time before agitating the floor with a low-speed floor machine fitted with a black or green stripping pad.
- Allow a further 10-15 minutes contact time, taking care not to allow the polish slurry to dry out.
- Remove all the slurry with a wet pick-up machine or mop.

- Finally rinse/damp mop the floor thoroughly to ensure there are no remaining residues. Allow the floor to completely dry before applying new coats of seal or polish.

Spray Stripping:

Dilute with 1 plunge of a 5lt pelican pump to a 600ml spray bottle spraying a mist over the floor a few square metres at a time, and scrub the area with a machine fitted with a stripping pad. Remove all residues and rinse floor as above.

SAFETY ADVICE

DANGER Causes severe skin burns and eye damage. May be corrosive to metals. Wear protective gloves, protective clothing and eye or face protection. IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. Absorb spillage to prevent material damage.

FOR PROFESSIONAL USE ONLY

COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
