TECHNICAL SPECIFICATION

LAUNDRY DESTAIN POWDER 208

A white granular, free flowing powdered destain, for the removal of stains from clothing. Product is based on an environmentally friendly oxygen based destaining agent with an accelerator which makes it suitable for use at low temperature washes. Product also contains corrosion inhibitors to protect internal parts of machine, sequestering agents and emulsifiers.

Features include:

- Excellent stain removing properties.
- Ideal for use on poly cottons and cottons.
- Effective in all water conditions.
- Versatile application.
- All surfactants used are biodegradable and phosphate free.

PROPERTIES:

Appearance @ 20°C
pH (1% solution)
Odour

SPECIFICATION:

White, free flowing powder
12.5
None

DIRECTIONS FOR USE:

- Soak Process - make up solution in hot water at a concentration 1:200.
- Washing Process - add 150g of product per 18Kg dry weight to the main wash (i.e. at a dilution rate of 1:120).
- This product should not be used for woollens, silks or other delicates.

STORAGE:

Store in original container and protect from extremes of temperature. Do not store in direct sunlight nor allow the product to freeze. Shelf life (in unopened original container) is a minimum of 18 months. Replace lid after use.

SAFETY ADVICE:

Under the new GHS Standard this product is classified as Corrosive and Irritant. Please refer to section 2.2 of the Safety Data Sheet for more information.

PACK SIZES:

10Kg bucket (64 per pallet)

Order Code: LM208-10KG
