PRODUCT USER GUIDE

BLITZ

A powerful low foaming, non-perfumed alkali detergent degreaser for the removal of the heaviest grease and ingrained organic soiling from kitchen floors, hard surfaces and process equipment.

Features include:

- Economical in use – Can be diluted up to 100:1
- Effective – a concentrated blend of non-caustic alkalis and surfactants ensures grease, soil and oily deposits are broken down quickly and efficiently.
- Versatile – can be applied in a spray/wipe application, by bucket and mop or floor scrubber dryer to remove ingrained grease and grime from floors, walls, worktops and process equipment within the commercial catering environment and building services where extra chemical energy is required.

PROPERTIES:

Appearance @ 20°C
pH (neat)
Odour
Specific Gravity @ 20°C

SPECIFICATION:

Clear, orange liquid
>13
Mild, characteristic
1.070 – 1.090

DIRECTIONS FOR USE:

- **Heavy-Duty Floor Cleaning** – Make up a bucket solution with a 60-80:1 dilution. Mop onto floor and leave for a few minutes to penetrate grease/grime. Use a deck scrubber or brush to agitate heavy deposits before rinsing the floor thoroughly with clean warm water and mopping to remove all chemical and soil residues.
- **Floor Scrubber Dryer** – Add 500mls per 80 litres in the machine tank.
- **Light-Medium Soiling** – Dilute with up to 100:1 with fresh water depending on level of soiling and apply by spray, cloth or mop to the surface, agitating if required, before wiping clean with paper or a clean cloth.

Caution: Do not use on sealed or polished floors, as solution may affect the finish. Do not use on zinc, aluminium or similar alloys as it may cause damage to the surface. Follow the recommended dilution rates and rinse floors and surfaces thoroughly after use. Using an over-concentrated solution or poor rinsing can leave a white chemical residue that may be difficult to remove.

STORAGE: Store in original container and protect from extremes of temperature.

SAFETY ADVICE: Refer to the **Safety Data Sheet** for full information.

PACK SIZES: 2X5L case (80 per pallet)

Order Code: HMBLITZ-2X5L
